## 13-MONTH OLD GIRL TO DALLAS FOR HEART EXAMINATION

Mr. and Mrs. Raymond Walden left Wednesday to take their 13-month old daughter to Dallas for tests and examinations for a congenital heart condition. They will be there for a 10 a.m. appointment with a heart specialist at the Crippled Children's Hospital.

The little girl, Sandra Lee, was born May 21, 1962 in Taylor. Their doctor there noticed when the baby was two and one half weeks old that the heart condition existed.

The family moved to Hamlin when Sandra was about three months old. Her father, an employee with R. E. James Gravel Co. for the past 15 years, is foreman of the gravel yard here which was formerly Hamlin Sand and Gravel until the purchase last year by the Jones company.

Sandra has been under the regular care of a local doctor along with an Abilene pediatrician. Upon their recommendation she was taken to a Houston specialist who agrees that an open heart operation will be necessary to close the hole between the chambers of the heart. The family hopes that after the evaluation in Dallas they will know more about the time and place for the surgery.

The Waldens received word Tuesday that the Thursday appointment had been arranged. Sandra shows no symptoms of having a heart condition. Her activity is very much like that of other children her age. She started walking at 10 months and now weighs 18 lbs. 2 oz. Her mother mentioned that she now seems to tire easily and rests frequently.

The delicate little girl with brown eyes and blond curls laughs readily seems to enjoy the attentions shown her by her family and friends.

The Waldens, who are members of the Central Avenue Baptist Church, have five other children, two that are married and three that are still at home. They are: Richard of Abilene, Mrs. David (Wilma) McLaughlin of Dayton Ohio, Don, 15, Dale, 9, and Linda, 5.

Mrs. Walden's mother, Mrs. L. E. White, lives with them and she will care for the children while the parents are in Dallas.

## YOUR BCD NEWSLETTER...

Tip of the hat to our good friend, and 2nd. vice-president Bob Craig, who has offered your BCD space to run this column in the Hamlin Herald. This will be the official news organ of the BCD in communicating to its members and other interested persons, rather than a monthly mimeographed newsletter.

Committee activity has really gotten off to a flying start during the past few months under the capable ability of our president Joe Ford. Enthusiasm and good attendance has been generating throughout all committees. This to me is the rewarding thing about BCD work, receiving the cooperation of volunteer workers, combining their talents into one main aim and purpose, that making Hamlin a better place in which to live and make a living.

Herman McBride, chairman of community improvement has really taken the bull by the horns by initiating several new projects to improve our city. How about doing your part around your own premises in establishing Hamlin the "Cleanest Town" in the U. S. A. for its population. He also has a new industry at his place of business, the making, with a patent pending, of a Cotton Bale Wall Clock. Your BCD office has one on display.

The Agriculture and Live-

stock Committee is composed of E. J. Whaley, J. D. Ferguson and T. C. Blankinship. As most of you have heard by now, this committee has been busy studying and working out rules and regulations for the beef heifer project. The boys submitted applications and four were chosen for the heifers.

Ned Moore, chairman of highways and transportation has finished a project of having the highway signs on the Rotan and Aspermont Highways restored and are in excellent shape. All directors will make a special effort to see that the Railroad Company has signal lights at the crossing on the Aspermont and Rotan Highways.

Your BCD Office has a "City Employment Commission" project in progress. Whereby college and high school students, seeking employment may register, and employers list their needs. More than 70 applications for employment in the Hamlin Convalescent Center have been furnished through the office.

Your BCD sponsored the advertising for the Amateur Rodeo here this past week, maintaining headquarters in the office.

Plans are underway to have brochures of Hamlin printed, with a map of Hamlin, pictures, and other information, for distribution through the office and business men.

The Jones County Tourist and Historical Association was attended by the secretary, and several interested citizens in Hamlin, at the Jones County Court House. Plans are to place The Texas Historical Building Medallion in a structure worthy of recognition. You may help with this project by: writing your suggestions and/or locations for Jones County Historical Survey, or, if you know of possibility any Texas War Indep. (1835) graves in County, know any Civil War Vets; graves unmarked in County; also please list all Civil War Vets, buried in Jones County, to your knowledge. List all buildings, old sites and locations in County—you feel should be marked.

Your BCD Secretary attended the 45th Annual Convention of The West Texas Chamber of Commerce in Wichita Falls, the theme for the entire Convention was "Emphasis - Our Changing Economy." Highlight of the two day convention was the annual dinner at the Woman's Forum. Speaker was Donald I. Rodgers, business and financial editor of the New York Herald-Tribune.

## 1964 WHEAT PROGRAM, AS IT STANDS NOW, EXPLAINED

College Station, June 19—The wheat program for 1964 under provisions of existing law are reviewed by the U. S. Department of Agriculture in response to questions that have arisen since the referendum of May 21.

Price support will be available to producers who plant within the acreage allotments which have been established for the 1964 wheat crop. Allotments were announced in April. The national average support price will be 50 percent of parity. (The present parity price is \$2.51 per bushel.) There will be no marketing quota penalties for planting in excess of acreage allotments. However, the statute provides that producers who overplant their allotments will receive "history" credit only in the amount of their allotments.

Farmers who have Conservation Reserve contracts agreed to plant within their farm acreage allotments, and this means that the 1964 Conservation Reserve payment for the farm is dependent on compliance with the wheat acreage allotment.

Wheat that was grown in excess of marketing quotas in the past will be subject to the original penalty provisions until July 1, 1964. After that date, stored excess wheat may be released without penalty. The amount of such wheat in storage on farms and in warehouses is estimated at 45 million bushels. This could be increased from the 1963 crop, which is subject to marketing quotas, and excess wheat from this crop may be stored by the producer to avoid payment of the penalty. On the other hand, underplanting or underproduction of 1963-crop wheat could result in the early release of excess wheat that had been stored from previous crops to avoid payment of penalty.

Other items of interest to growers in administration of the 1964 wheat program without marketing quotas include: —ASC county committees will hear all appeals of 1964 farm wheat acreage allotments. Farmers have 15 days from the date of the county committee's decision to appeal to the ASC State Committee if they do not agree with the county committee decision. —Hearings on appeals of farm normal yields will not be scheduled because the yield figures will not be applicable for 1964. Where producers wish to furnish proven yield data, such data will be filed in the county office with other records of that farm.

Marie Voss, Snyder, 19.2; Myrtle Davis, Merkel, 19.5; Lynn Wilson, Sweetwater, 19.7.

Second go around, Miss Dalby and Miss Wilson, tied with 19.2; Janice Pace, Rising Star, 19.4; Miss Voss and Mary Davis, Abilene, tied with 19.5.

Total for two rides: Miss Dalby, 38.3; Miss Voss, 38.7; Miss Wilson, 38.9; Myrtle Davis, 39.4.

Team tying: first go round: Edd Workman-J. L. Sawyer, 13.6; Bing Crosby-Horace Litchum, 14.9; Pat Mitchell-Jim Prother, 17.8; Terrell Lawrence-James Powell, 19.

Second go round: Jack Mitchell-Ned Ward, 13.7; J. L. Sawyer-Workman, 15.4; Pitcock-George Fraizer, 15.7; Lee Tugman-Leroy Hodges, 16.4.

Total on two ties: Lee Tugman, Leroy Hodges, 36.7; Mac Bowyer-Jack Strickland, 37.9; Pug and Billy Rip, 39.6; Litchum-Crosby, 41.9.

Bull Riding: Royce Rodgers, Edinburg, 15.0; Dicky Kendrick, Lubbock, 14.4; Jerry Harris, Abilene, 14.1; John Koonsman, Snyder, 14.0.

## FAIRVIEW NEWS

By MRS. ELMER JOINER

Another big rain fell Sunday night over the county, in some places being as much as four inches, but in this part of the county about an inch and six tenths was measured. Every one could have done without the rain, but that is one thing we don't have any control over, it might be a blessing in disguise.

Fairview church is happy to report we have a pastor again, after having been without a few weeks. Last Sunday the church called the Rev. Kenneth Leverett, teacher in Junior High School in Hamlin. Wednesday night he met with us and accepted the call. His family includes his wife and two little daughters, Kimberly and Kristie. He came for both services Sunday, to begin his ministry with us.

Friday, Arthur Treadwell, Fort Worth, was visiting with relatives in and around Hamlin. In visiting with him we were again amazed at what wonders can be performed to help those that have been unfortunate enough to lose their speech, for since having throat surgery he had been unable to speak. Now with the aid of a mechanical device he is able to speak again, carrying on a conversation.

Mrs. Joe Ford announced that her youngest son, Doug Ford and wife, of Truth or Consequences, New Mexico, are the proud parents of a five and a half pound boy.

Mr. and Mrs. Elmer Joiner were saddened last week by the death of Mrs. A. E. Rutherford, Stamford, a cousin of theirs. She passed away at the Stamford Hospital last Tuesday night and was buried Thursday afternoon, funeral being held in the Trinity Baptist Church, where she was a

sed away at birth, some forty one years ago.

Mr. G. W. Wainwright was moved from Stamford Hospital, to the newly opened convalescent home, formerly the Stamford Inn, Stamford, last week.

Mr. and Mrs. R. E. Ray, Mrs. Lois Hampton, from Anson and Abilene, visited with the Elmer Joiners Sunday afternoon.

Sunday afternoon visitors of the M. F. Holmes were Mr. and Mrs. Ray Herrel, Abilene, Mrs. Wayne Hodnett and Billy, and their children, Mr. and Mrs. Jack Wright and children.

Mr. and Mrs. Fred Rosenbaum visited Friday night with Mr. and Mrs. L. R. Faulkenberry, in Hamlin.

Mr. and Mrs. E. C. Gray, Anson spent last Wednesday with their son, Mr. and Mrs. Winson Gray.

Spencer Ford was one of the winning contestants, the first night of the rodeo, in the goat sacking contest.

New residents of our community are Mr. and Mrs. Gary Cooper, who have recently moved in the Rose house. Mrs. Rose, and Mrs. Don Rose and Joey, have all recently moved to Stamford.

Mrs. Sharlot Gabriel, Teresa, Lynn and Tommy, were in church Sunday night.

Mr. and Mrs. Willard Herring and children, Abilene, spent Sunday with her parents, Mr. and Mrs. Joe Ford.

Last Wednesday Mrs. E. A. Henry's sisters, Mrs. Shirley Stewart and Mrs. Obie Wright, Aspermont, visited with her. Friday night, Mrs. Mary Sue Henry, a sister-in-law, from Rule was a guest, then Friday night and Saturday, their son, Clois and family, Snyder, came to see his parents.

Mr. and Mrs. Winson Gray

ate lunch with the Woodrow Goodwins Sunday, then Sunday afternoon they all went to inspect the Helmer Carter's new home they are building south of Anson.

Mrs. Woodrow Goodwin and Linda attended the funeral in Stamford, for Mrs. Rutherford, Thursday afternoon.

This reporter attended a meeting this, Monday, morning of the women that are on the board of the woman's division, of the Jones County Fair, which will be held in Anson on August 22, 23 and 24. The first day will only be the horse show, with the exhibits all being set up on that day and being open for viewing the 23 and 24. Mrs. Bob Barksdale, of Anson will be the superintendent for the women's division, this year. This is our County Fair and lets all be thinking about getting some exhibits ready for it. The Fair can only be what we put into it, and we can have a real good one if we only try hard enough, provided it doesn't rain it out again.

## "For Me to Live is Christ"

"And the Lord shall guide thee continually, and satisfy thy soul in draught, and make fat thy bones: and thou shalt be like a watered garden, and like a spring of water, whose waters fail not."

Isaiah 58:11.

"For me to live is Christ" is to be living for a purpose—to serve God by drawing out my soul to the poor, lonely, hungry, and lost. "For me to live is Christ" is to lead men everywhere to Jesus Christ who is the fountain of the water of life. And He has promised that when I am in His service He will guide me, and satisfy me, and I shall be like the flowers in this picture, like a watered garden, sustained by Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

## TWICE AS MUCH COOLING

With the patented features of Paramount Coolers

Yes! This famous Paramount 5000 c.f.m. evaporative cooler gives you up to twice as much cooling because of these patented features:

— Many coolers lose as much as 70% of cooling efficiency because dust, dirt and salts clog the filters. Patented No-Clog Sta-Fresh Filters are guaranteed clog-proof, assuring 100% cooling efficiency all summer long.

— Filters saturated with water become heavy and often sag and settle from the top, drawing hot, unfiltered, uncooled air into the cooler which may create as much as a 70% cooling loss. Patented Grip-Lock Filter Holders are guaranteed to prevent sagging and settling of filters assuring 100% cool, clean, filtered air.

— Without correct water trough adjustment, sections of the filters remain dry, resulting in substantial cooling loss and costly service expense. Patented Free-Flow Visible Water Troughs with external adjustment assure 100% saturation, and 100% cooling for the entire life of the cooler.

— Added feature — Patented Window Closing Attachment lets you close and lock your window. Eliminates entry of dust, rain and drafts into your home.

About dark last Friday night Hamlin came near having a very disastrous fire in the business district. It was found that smoke was coming from some source in the Wall-Young Building and the adjoining house, occupied by the Style Shop, of which Miss Florence Tims is the proprietress. Breaking into these places the firemen found that the blaze was eating its way across the floor in the Style Shop and had progressed into the Wall-Young Gents' Furnishing Store. . .

Last week the Hamlin Luncheon Club had the pleasure of being entertained in the Ladies' Rest Room at luncheon. The Methodist ladies had charge and secured about forty business men. All report a good time, plenty to eat and plenty of entertainment. . .

## WADE-SPAULDING VOWS READ FRIDAY IN FORMAL CEREMONY

Wedding vows were exchanged Friday evening in formal ceremonies in the Hamlin Church of Christ by Montie Mary Wade and Robert Taylor Spaulding. Vows were read at 7 p. m. by Rodney Spaulding of Arlington, brother of the bridegroom, as the couple stood before an arch covered with jade greenery and white killian daisies. The setting was completed with two candle trees and a pair of candelabra, also decorated with greenery and daisies.

Nuptial music was presented by a choral group composed of Katherine Tedford, Re Wright, Bennie Elderton, Don Wade, brother of the bride, all of Wichita Falls, and June Wood of Prescott, Arizona. Soloists were Mrs. Tedford, Miss Wood and Wade.

The bride is the daughter of Mr. and Mrs. Auldon A. Wade and the bridegroom's parents are Mr. and Mrs. Rollin T. Spaulding of Abilene, former residents of Hamlin.

The bride, escorted by her father, chose a gown of white silk organza styled on princess lines. Lace panels of the skirt front and the lace trim of the round neckline of the bodice were accented with iridescent sequins. A lace panel in the back extended to a chapel train. Her veil of illusion fell from a pearl crown. She carried a cascade arrangement of white butterfly rosebuds.

Sarah Snapp was maid of honor. Bridesmaids were Jane Eljen Cudd, Georganna Fitzgerald of Wichita Falls and Mrs. Bob Carter, Junior bridesmaids were Cathy Wade of Stamford and Becky Wade of Wichita Falls, both nieces of the bride.

The attendants' street length dresses of aqua polished cotton were worn with white overskirts of white embroidered silk organza. They carried baskets of marguerite daisies. Their headpieces were circlets of daisies.

Melissa Wade of Stamford and Pam Wade of Wichita Falls were flower girls. John Paul Wade of Stamford and Don Russel Wade of Wichita Falls were ring bearers.

Candles were lighted by Mike Wade of Stamford, and Mike Owen of Hamlin. Gordon Carruth of Sweetwater was best man. Groomsmen were Comm. David Lee Spaulding, brother of the bridegroom, of Washington, D. C., Charles Wade of Stamford, brother of the bride, and Everett Gibson of Hamlin.

Guests were seated by Freddie Hale of Abilene and Bob Haynes of Sundown. The reception was held in the home of the bride's parents. Members of the houseparty were, Mmes. Loyd Burkhardt, Hamlin, Rodney Spaulding, Arlington, W. H. Shaw, Abilene, Charles Wade, Stamford, Don Wade, Wichita Falls, John Porter, Abilene, and Mary Kay Houston, Abilene, Billie Loyce Lieb, Sweetwater, and Mary Debs Rountree, Hamlin.

For a wedding trip to Colorado the bride wore an aqua cotton shantung sheath dress with matching jacket lined with companion print and beige accessories.

The couple will be at home at 1402 Washington Blvd. in Abilene after June 23.

The bride was valedictorian of the 1961 graduating class of Hamlin High School and is now a senior at Abilene Christian College, Abilene, majoring in elementary education. She is a member of Pandora Social Club and Kappa Delta Pi, education honor society.

Spaulding, a 1958 graduate of Hamlin High School, was graduated in May from ACC with a bachelor of science degree in industrial arts. He is employed with Western Auto Associate Store.

The rehearsal dinner was hosted by the bridegroom's parents Thursday evening in the home of his aunts, Misses Buna and Villa Rountree.

## SCREWWORM FLIES BEING FED BEFORE RELEASE FROM PLANE

Mission, June — A new wrinkle has been added in the battle to eradicate screwworms from the Southwest. Screwworm flies reared and sexually sterilized in a plant near Mission are now fed prior to being released from airplanes over large portions of the five-state eradication area.

Entomologists have found that feeding the flies a better chance for survival after being released and results in large numbers of vigorous flies available for the program.

A small paper cup containing a cotton ball and corn syrup is placed in side each carton at the same time the box is filled with sterilized pupae. After the flies have emerged, they can feed until they are released. Experts list these advantages to fly-feeding:

(1) More flies are alive at release time, since cartons can be held an extra day giving pupae more time to emerge.

(2) Flies live longer after release and are better able to find shelter and food in nature.

(3) Fewer flies are lost during periods when unfavorable weather does not permit aerial release and flies may have

## YOUR BCD NEWSLETTER...

Tip of the hat to our good friend, and 2nd. vice-president Bob Craig, who has offered your BCD space to run this column in the Hamlin Herald. This will be the official news organ of the BCD in communicating to its members and other interested persons, rather than a monthly mimeographed newsletter.

Committee activity has really gotten off to a flying start during the past few months under the capable ability of our president Joe Ford. Enthusiasm and good attendance has been generating throughout all committees. This to me is the rewarding thing about BCD work, receiving the cooperation of volunteer workers, combining their talents into one main aim and purpose, that making Hamlin a better place in which to live and make a living.

Herman McBride, chairman of community improvement has really taken the bull by the horns by initiating several new projects to improve our city. How about doing your part around your own premises in establishing Hamlin the "Cleanest Town" in the U. S. A. for its population. He also has a new industry at his place of business, the making, with a patent pending, of a Cotton Bale Wall Clock. Your BCD office has one on display.

The Agriculture and Live-

stock Committee is composed of E. J. Whaley, J. D. Ferguson and T. C. Blankinship. As most of you have heard by now, this committee has been busy studying and working out rules and regulations for the beef heifer project. The boys submitted applications and four were chosen for the heifers.

High Moore, chairman of highways and transportation has finished a project of having the highway signs on the Rotan and Aspermont Highways restored and are in excellent shape. All directors will make a special effort to see that the Railroad Company has signal lights at the crossing on the Aspermont and Rotan Highways.

Your BCD Office has a "City Employment Commission" project in progress. Whereby college and high school students, seeking employment may register, and employers list their needs. More than 70 applications for employment in the Hamlin Convalescent Center have been furnished through the office.

Your BCD sponsored the advertising for the Amateur Rod and Fish Club here this past week, maintaining headquarters in the office.

Plans are underway to print brochures of Hamlin printed, with a map of Hamlin, pictures, and other information, for distribution through the office and business men.

The Jones County Tourist and Historical Association was attended by the secretary, and several interested citizens in Hamlin, at the Jones County Court House. Plans are to place The Texas Historical Building Medallion in a structure worthy of recognition. You may help with this project by: writing your suggestions and or locations for Jones County Historical Survey, or if you know of possibility any Texas War Indep. (1835) graves in County, know any Civil War Vets; graves unmarked in County; also please list all Civil War Vets, buried in Jones County, to your knowledge. List all buildings, old sites and locations in County—you feel should be marked.

## HAMLIN POSTOFFICE GIVEN 79520 IN ZIP CODE PROGRAM

Our five-digit ZIP Code is 79520. Postmaster Perry Sparks announced today.

Everyone in Hamlin will use ZIP Code on all their correspondence to speed mail deliveries and reduce the chance of mis-sent mail," Postmaster Sparks said.

ZIP Code, the Post Office Department's revolutionary new system of improved mail dispatch and delivery, goes into effect nationally on July 1.

Postmaster Sparks stressed the importance of all citizens of Hamlin learn this city's ZIP Code and using it in their return address on all correspondence. In answering Mail, he said, ZIP Code taken from return addresses on incoming mail should be used.

"The ZIP Code is literally the last word in mail addressing," Mr. Sparks said. "It should follow the city and state in addresses."

He cited this example of the proper use of ZIP Code:

Perry H. Sparks  
Postmaster,  
U. S. Post Office,  
Hamlin, Texas, 79520

The new ZIP Code plan, Mr. Sparks said, for the first time will permit the Post Office Department to short-cut repeated address reading.

The address on mail must often be read as many as eight or ten times by postal employees, to get it to the proper destination," Mr. Sparks said. "Each handling slows the process of mail dispatch and adds to the opportunity for human error."

With ZIP Code, a clerk needs only to glance at the code to know immediately to what national area, state and post office the letter is destined, and to speed it on its way, cutting up 24 hours off the time between deposit and delivery."

Mr. Sparks said when ZIP Code is in full swing, the United States will have "the most modern system of mail distribution and delivery in existence."

## 1964 WHEAT PROGRAM, AS IT STANDS NOW, EXPLAINED

College Station, June 19—The wheat program for 1964 under provisions of existing law are reviewed by the U. S. Department of Agriculture in response to questions that have arisen since the referendum of May 21.

Price support will be available to producers who plant within the acreage allotments which have been established for the 1964 wheat crop. Allotments were announced in April. The national average support price will be 50 percent of parity. (The present parity price is \$2.51 per bushel.) There will be no marketing quota penalties for planting in excess of acreage allotments. However, the statute provides that producers who receive "history" credit on the amount of their allotments.

Farmers who have Conservation Reserve contracts agreed to plant within their farm acreage allotments, and this means that the 1964 Conservation Reserve payment for the farm is dependent on compliance with the wheat acreage allotment.

Wheat that was grown in excess of marketing quotas in the past will be subject to the original penalty provisions until July 1, 1964. After that date, stored excess wheat may be released without penalty. The amount of such wheat in storage on farms and in warehouses is estimated at 45 million bushels. This could be increased from the 1963 crop, which is subject to marketing quotas, and excess wheat from this crop may be stored by the producer to avoid payment of the penalty. On the other hand, underplanting or underproduction of 1963-crop wheat could result in the early release of excess wheat that had been stored from previous crops to avoid payment of penalty.

Other items of interest to growers in administration of the 1964 wheat program without marketing quotas include: All acreage allotments will be based on all appeals of 1964 farm wheat acreage allotments. Farmers have 15 days from the date of the county committee's decision to appeal to the ASC State Committee if they do not agree with the county committee decision.

Hearings on appeals of farm normal yields will not be scheduled because the yield figures will not be applicable to 1964. Where producers wish to furnish proven yield date, the past will be subject to the such data will be filed in the county office with other records of that farm.

Marie Voss, Snyder, 19.2; Myrtle Davis, Merkel, 19.5; Lynn Wilson, Sweetwater, 19.7.

Second go around, Miss Dalby and Miss Wilson, tied with 19.2; Janice Page, Rising Star, 19.4; Miss Voss and Mary Davis, Abilene, tied with 19.5.

Total for two rides: Miss Dalby, 38.3; Miss Voss, 38.7; Miss Wilson, 38.9; Myrtle Davis, 39.4.

Team tying: first go around: Edd Workman-J. L. Sawyer, 13.6; Bing Crosby-Horace Lithum, 14.9; Pat Mitchell-Jim Prother, 17.8; Terrell Lawrence-James Powell, 19.

Second go around: Jack Mitchell-Ned Ward, 13.7; J. L. Sawyer-Workman, 15.4; Pitcock-George Fraizer, 15.7; Lee Tugman-Leroy Hodges, 16.4.

Another big rain fell Sunday night over the county, in some places being as much as four inches, but in this part of the county about an inch and six tenths was measured. Fairview church is happy to report we have a pastor again, after having been without a few weeks. Last Sunday the church called the Rev. Kenneth Leverett, teacher in Junior High School in Hamlin. Wednesday night he met with us and accepted the call. His family includes his wife and two little daughters, Kimberly and Kristie. He came for both services Sunday, to begin his ministry with us.

Friday, Arthur Treadwell, Fort Worth, was visiting with relatives in and around Hamlin. In visiting with him we were again amazed at what wonders can be performed to help those that have been unfortunate enough to lose their speech, for since having throat surgery he had been unable to speak. Now with the aid of a mechanical device he is able to speak again, carrying on a conversation.

Mrs. Joe Ford announced that her youngest son, Doug Ford and wife, of Truth or Consequences, New Mexico, are the proud parents of a five and a half pound boy.

This reporter attended a meeting this, Monday, morning of the women that are on the board of the woman's division, of the Jones County Fair, which will be held in Anson on August 22, 23 and 24. The first day will only be the horse show, with the exhibits all being set up on that day and being open for viewing the 23 and 24. Mrs. Bob Barksdale, of Anson will be the superintendent for the women's division, this year. This is our County Fair and lets all be thinking about getting some exhibits ready for it. The Fair can only be what we put into it, and we can have a real good one if we only try hard enough, provided it doesn't rain it out again.

## TWICE AS MUCH COOLING

With the patented features of Paramount Coolers

Yes! This famous Paramount 1000 c.f.m. evaporative cooler gives you up to twice as much cooling because of these patented features:

— Many coolers lose as much as 70% of cooling efficiency because dust, dirt and salts clog the filters. Patented No-Clog Sta-Fresh Filters are guaranteed clog-proof, assuring 100% cooling efficiency all summer long.

— Filters saturated with water become heavy and often sag and settle from the top, drawing hot, unfiltered, uncooled air into the cooler which may create as much as a 70% cooling loss. Patented Grip-Lock Filter Holders are guaranteed to prevent sagging and settling of filters assuring 100% cool, clean, filtered air.

— Without correct water trough adjustment, sections of the filters remain dry, resulting in substantial cooling loss and costly service expense. Patented Free-Flow Visible Water Troughs with external adjustment assure 100% saturation, and 100% cooling for the entire life of the cooler.

— Added feature — Patented Window Closing Attachment lets you close and lock your window. Eliminates entry of dust, rain and drafts into your home.

## "For Me to Live is Christ"

"And the Lord shall guide thee continually, and satisfy thy soul in draught, and make fat thy bones: and thou shalt be like a watered garden, and like a spring of water, whose waters fail not."

Isaiah 58:11.

"For me to live is Christ" is to be living for a purpose — to serve God by drawing out my soul to the poor, lonely, hungry, and lost. "For me to live is Christ" is to lead men everywhere to Jesus Christ who is the fountain of the water of life. And He has promised that when I am in His service He will guide me, and satisfy me, and I shall be like the flowers in this picture, like a watered garden, sustained by Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

About dark last Friday night Hamlin came near having a very disastrous fire in the business district. It was found that smoke was coming from some source in the Wall-Young Building and the adjoining house, occupied by the Style Shop, of which Miss Florence Sims is the proprietress. Breaking into these places the firemen found that the blaze was eating its way across the floor in the Style Shop and had progressed into the Wall-Young Stores' Furnishing Store.

Last week the Hamlin Luncheon Club had the pleasure of being entertained in the Ladies' Rest Room at luncheon. The Methodist ladies had charge and secured about forty business men. All report a good time, plenty to eat and plenty of entertainment.

## Old Fiddlers to Vie At Reunion in Stamford July 3

Mrs. Lou Cannon, secretary of the Texas Cowboy Reunion Association of oldtime cowboys, this week announced an oldtimers fiddlers contest to start at 9:30 Wednesday, July 3 at the oldtimer's bunkhouse.

Fiddlers minimum age limit is 18, but the oldest 1962 contest was 96. There are 4 prizes totaling over \$100. All oldtime fiddlers will be guests at the oldtimers chuckwagon. Admission to the contest is free to the public. Master of ceremonies will be Spurgeon Reeves of Hawley, president of the association, which meets the three days of the Cowboy Reunion, Stamford July 2-3 and 4.

The oldtimers have recently expanded their western museum in the bunkhouse and more old time western relics are desired to display the working tools of a past generation to the public. All who might wish to contribute such western historic relics to the oldtimers' museum should contact Mrs. Cannon at Stamford, who will see that the donor receives full credit.

Wedding vows were exchanged Friday evening in formal ceremonies in the Hamlin Church of Christ by Montie Mary Wade and Robert Taylor Spaulding. Vows were read at 7 p. m. by Rodney Spaulding of Arlington, brother of the bridegroom, as the couple stood before an arch covered with jade greenery and white lillian daisies. The setting was completed with two candle trees and a pair of candelabra, also decorated with greenery and daisies.

## COMMUNITY

Rains in varying amounts have been falling for the past month. The area north of Old Glory last Monday night received over 6 inches while here in "town" received almost 3 inches. The entire country-side is lush with greenness, much of which is not too desirable — such as Johnson grass, sunflowers, broom weeds, etc. Field work and harvest of small grains are continuing as soon as an area dries out enough to allow any work.

## PERSONALS

Mr. and Mrs. Marvin Letz and family of Haskell visited with parents, Mr. and Mrs. Herman Letz, Sunday.

Miss Nancy Robinson of Lovington, New Mexico, has been visiting with her parents, Mr. and Mrs. Dobe Robinson. This past Saturday evening she served as an attendant in the all-white wedding of Mrs. Jack Waldrop, the former Celia Deane Reese of Rotan.

Mrs. Ansel Sawyers and Mrs. John L. Garner left Sunday for San Saba to visit with their sister, Mrs. Mary Hanson, as she is scheduled for major surgery this week.

Mr. and Mrs. Leslie Kline and daughter from Abilene Christian College were dinner guests of the John L. Garner's Sunday. Mr. Kline filled the pulpit at the Old Glory Church of Christ at the two Sunday

services. Other dinner guests of the Gardners Sunday were Misses Sharon Leverett, Nancy Robinson, and Donnie Sawyers.

Mr. and Mrs. Beno Hertenberger have been entertaining family members during the past week. Last Monday every grandchild except one was present. Included in this list of visitors were Marsha and Phyllis Hertenberger, daughters of Mr. and Mrs. Don Hertenberger of Abilene. Also Mrs. Jack Simmons and four boys of Louisiana.

Diane Gerloff of Las Vegas, New Mexico has been with her grandmother, Mrs. Katie Gerloff, the past week. Her parents, Mr. and Mrs. Cecil Gerloff came for a visit and she remained. She has spent part time with her maternal grandparents, Mr. and Mrs. J. W. Hart of Aspermont.

### STATE CAPITAL Highlights AND Sidelights by Vern Sanford

TEXAS PRESS ASSOCIATION

Austin—Texas Research League, a nonprofit government study organization that does many administration studies at the request of the state, has issued a report on its year-long probe of the Railroad Commission. Many of its recommendations on agency management and oil and gas conservation already are being programmed.

One scheduled change involves the staffing and management of Railroad Commission district offices. Commission now has 12 such offices. Responsibilities with respect to wells and staff members are so varied that the League believes the system unfairly imbalanced.

District 8 in Midland, for example, has approximately four times as many wells as District 4 in Corpus Christi, but each office is staffed with only four engineers. Wichita Falls has more than twice as many wells as Houston, but two less field men.

Four field men watch over 62,148 operating wells in the Midland district, yet 21 men

oversee 26,036 wells in the Kligore area.

League's answer to the problem is to redistrict and cut the districts from 12 to 10.

The huge Midland district would divide into three areas with new offices at Lubbock and Fort Stockton.

San Angelo, Refugio, Mount Pleasant and Palestine offices would be absorbed by other districts under the new operation plan.

Padra Island Park Plans Underway—If and when Congress approves a \$1,500,000 appropriation to meet the land-buying needs of Padre Island National Seashore park, newly-named park superintendent William L. Bowen will begin to acquire land for the proposed 80.5-mile coastal playground.

U. S. Secretary of the Interior Stewart Udall said Bowen will open an office in Corpus Christi some time after July 1 with a small staff. Bowen, Kansas-born veteran of the national park service, took part in pre-

liminary studies leading to the establishment of the new national seashore area on Padre Island.

Post Mortem — About 300 state labor leaders came to Austin to reflect on the accomplishments—or lack of accomplishments—of the 58th Legislature.

Speakers at the seminar included Rep. Dick Cherry, Waco Democrat, and Rep. Ike Harris, Dallas Republican, and Sen. A. R. (Babe) Schwartz of Gal-

veston.

"The 58th" could turn out better than the 59th," Cherry said. "Next time, you'll have the problems of a big tax session and a second-term speaker (Speaker Byron Tamm, supposedly) running for Attorney General."

As session achievements, Cherry listed the Padre Island bill, Municipal Annexation bill, Tourist Development program, Water expansion and provisions for teacher retirement.

## SCREWWORM FLIES BEING FED BEFORE RELEASE FROM PLANE

Mission, June —A new wrinkle has been added in the battle to eradicate screwworms from the Southwest. Screwworm flies reared and sexually sterilized in a plant near Mission are now fed prior to being released from airplanes over large portions of the five-state eradication area.

Entomologists have found that feeding the flies a better chance for survival after being released and results in large numbers of vigorous flies available for the program.

A small paper cup containing a cotton ball and corn syrup is placed in side each carton at the same time the box is filled with sterilized pupae. After the flies have emerged, they can feed until they are released. Experts list these advantages to fly-feeding:

- (1) More flies are alive at release time, since cartons can be held an extra day giving pupae more time to emerge.
- (2) Flies live longer after release and are better able to find shelter and food in nature.
- (3) Fewer flies are lost during periods when unfavorable weather does not permit aerial release and flies may have
